WEEKS\*

## WHO ARE THEY FOR? ADULTS WHO HAVE HEP C AND A MEDICARE CARD

^ Most people have no or very mild side-effects \* For a small number of people, treatment may last longer

**IMPORTANT NOTE: TO MAKE SURE YOU ARE CURED, YOU NEED TO GET A PCR BLOOD TEST AT LEAST 12 WEEKS AFTER YOU FINISH YOUR TREATMENT**

Hepatitis ACT is Canberra's community hepatitis organisation, funded by ACT Health to deliver a comprehensive range of hepatitis-related programs and no-cost supports.
